

## Trane Connect Tutorial Script

*1 min, 17 second version –*

[0:00]

Welcome to the new and improved Trane Connect app! Let's take a quick look at what's new.

[0:04]

When you first log in, you'll notice a cleaner, more intuitive menu. If you haven't selected an organization yet, just click here to choose one.

[0:13]

The new interface is streamlined, showing you only what you need—organizations, buildings, and devices. Use the search or filter options to quickly find what you're looking for.

[0:23]

Once you select an organization, you'll see an overview of its buildings and devices. The menu updates automatically, displaying key details like address, title, and icon. You can easily switch organizations anytime.

[0:36]

From here, you can select specific buildings to focus on. Your selections will instantly update all related data and reports, giving you a clear view of what's happening.

[0:47]

Hover over any building for more details, including a preview of connected devices and their status. You can even connect or disconnect devices right from this screen.

[0:57]

What's more, the new Trane Connect app gives you an easier-access snapshot and is designed with your needs in mind. Enjoy the best in remote monitoring and control, receive real-time alerts and notifications, manage energy usage more efficiently, and access historical data and reporting—all of which contribute to cost savings, energy efficiency, improved maintenance, and enhanced comfort.

[1:17]

It's all about giving you quick, easy control—monitoring, managing, and optimizing your system, all in one place. Enjoy the new Trane Connect experience!
